The new clubhouse for the Vulcan Golf and Country Club has been erected and although some work remains to be done in finishing the interior it can be easily seen that the spacious building will be a tremendous asset to the golf club.

Of rustic "Pan-abode" construction, the exterior of the building presents a pleasing appearance, with the windows of the large lounge looking to the west over the golf course. Anterooms are small but adequate and part of the roof covers an outdoor patio.

Plumbing, heating and furniture are still to be installed and it is hoped to get the clubhouse completed as early as finances allow. The public is cordially invited to visit the clubhouse and golf course.

At a recent executive meeting, membership fees for the current year were set as follows:

Men \$20, Ladies \$10, Students \$5, Family Ticket \$30. Non-resident membership \$12.50, Social Membership \$7.50. Green fees will be 50 cents per round until the clubhouse is opened.

The above fees, with the exception of the social membership fee, will be discounted 20 percent to all paid-up debenture holders. No one will be allowed to play golf on the course after May 20, unless dues or green fees are paid.

DeWitt - Curtis Rites, Arrowwood

Arrowwood United Church was the scene of a pretty Easter wedding on Monday, April 22, when Wilma Joyce, only daughter of Mr. and Mrs. C. R. Curtis of Arrowwood became the bride of Gordon Harold, son of Mr. and Mrs. W. P. DeWitt, also of Arrowwood. Rev. Wm. Morrison officiated at the double ring ceremony.

Wedding music was played by Mrs. Stewart Hayes. Before the ceremony the choir sang, "O Perfect Love" and during the signing of the register Miss Maureen Phillips sang, "Today, O Lord, We at Thine Altar Stand."

The bride was given in marriage by her father and wore a floor-length gown of white net over tulle with fitted bodice and long lily-point sleeves. Her finger-tip veil was held in place by a head-dress trimmed with pearl sequins. She carried a bouquet of red sweetheart roses atop a white prayer book.

Mrs. Eleanor Oberholtzer of Arrowwood, Miss Lee Murray of Calgary and Miss Arda Iverson of Meota, Sask., attended the bride and wore waltz-length gowns of champagne, turquoise and shrimp nylon over tulle with feather headdress to match. They carried nosegays of carnations in contrasting colors.

The groom was attended by Gordon Ingraham and ushers were Ronald Hayes, Dwane Norton and Douglas Phillips.

The bride's mother chose for the occasion a navy blue silk suit with pink accessories and a corsage of pink carnations while the groom's mother was attired in a turquoise and white two-piece dress with white accessories and a corsage of white carnations.

The reception was held in the church dining room and was attended by 70 guests. The happy young couple together with their parents received the guests and Miss Marvina Beagle was in charge of the guest book.

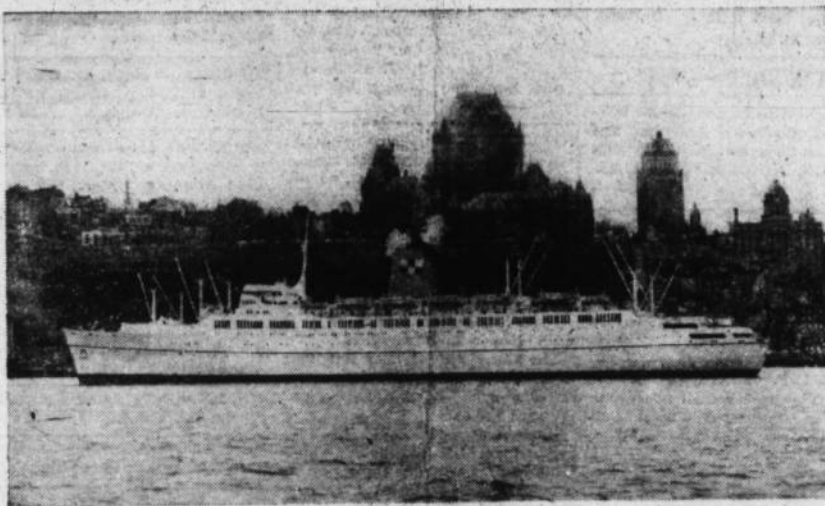

The bridal table was covered by a cut work linen table cloth which was a wedding gift to the bride's parents and was centered with a triple tiered wedding cake embedded in white tulle with pink corner blossoms. Tall white candles and two vases of pink roses also

decorated the table. The W.A. of the United Church catered to the reception and member of the choir served.

The toast to the bride was proposed by Harris Romfo of Medicine Hat, uncle of the bride, and the groom ably responded.

FWUA Discusses Agricultural Prices

Mrs. Olive Douglass and Mrs. Stuart Douglass were joint hostesses to the members of Berrywater F.W.U.A., for the May 1 meeting. Mrs. W. Oldfield presided in the absence of the president and vice-president.

Thirteen members answered roll call with "My Plans for Farmers' Day." News flashes from head office were read and Mrs. D. B. Smith presented a bulletin on Farm Problems and F.W.U.A. Policy. An interesting discussion followed an explanation by Mrs. O. Douglass, to the members, of a new Farm Union policy, which includes "Farm Pricing for Agricultural Products."

This would cover a negotiated price, set a year ahead, and would be based on the cost of production, plus a fair profit. Farmers would sell a certain quota at this price, and if the market price should be lower than the negotiated price the difference would be covered by a deficiency payment from the federal treasury.

After reading a letter from the Canadian Mental Health Assoc., regarding their "Personal Birthday Gift Scheme" for patients, it was agreed to send for several leaflets and gift tags.

It was decided to wait until the June meeting to elect representatives to attend the convention at Fort Macleod June 21.

A bulletin from the Canadian Association of Consumers was read.

Announcement of showing of a film "Never Surrender" by the Alberta Division of the Canadian Arthritis and Rheumatism Society, in Vulcan, May 9, was made. The secretary, Hank Van Veldhuizen will address the gathering a demonstration of exercises given by Mrs. Connolly, physio-therapist. The members all agreed to donate towards the expenses of this meeting.

Each member will be asked to contribute something for the kitchen at the Community Centre. A committee was appointed to make a list of required items, prizes, etc., and bring back a report.

Following adjournment a delicious lunch was served by the hostesses assisted by a committee. The next meeting will be held June 5, at the home of Mrs. Ed. Richardson.

Soaking Rain

With seeding in the district about fifty percent completed, light rain started to fall Tuesday evening of this week and continued all night. It was still raining at the time of writing on Wednesday.

Although the rain has brought seeding operations to a halt, it was not unwelcome, as many parts of the district were reporting dry soil conditions.

Meeting Well Attended

Four Candidates Heard At FUA's Political Forum

(By D. L. Dowhan)

Considering the good weather and the rush of spring work in the Vulcan district the F.U.A. candidates meeting held in the Vulcan high school auditorium on Monday had a fair attendance with 50 turning out. The meeting could not be held until E. G. Hansell, sitting member, returned from Ottawa, but it has been argued all across the constituency which is more or less co-terminous with F.U.A. District 12, that meetings would have been better held about three weeks earlier before farmers got busy.

Mr. Hansell led off the discussions with a survey of the extent of the squeeze on farmers which he estimated at 87% disparity. He said that the Liberal government had been in power during the ten years over which this disparity had arisen and he criticized especially the selling policy of the Canadian government. He urged the necessity of accepting other nations' currencies or bartering for goods.

He was humorously scornful of the Liberal candidate's advocating the putting up of steel bin storage and called them "Burton Bins," and asked how useful another Liberal "backbencher" was going to be. He suggested that Canada might do well to copy the U.S. which took the farmers wheat and sold it at any price it could get.

Gordon Burton thanked Mr. Hansell for advertising his idea on bins for him and went on to explain that he advocated them because he thought the plan is feasible, practical and relatively easy to administer. "It will get some wheat off farms and make room for a new crop; it gets cash into the farmer's hands and helps to decrease the amount of wheat in the secondary market, that is in cheap feed sales."

Discussing selling wheat or bartering wheat, he said that most of the countries in which Canada is building markets do not produce goods which Canadians want. "After all Canada can't trade a million cashmere shawls for millions of bushels of wheat. As for money someone has to underwrite the giveaway plan or the taxes we must raise to recover the money for rupees which we can't use."

Jack Griffen, C.C.F. candidate, pointed to the essential "difference between the C.C.F. and the other parties. We are different because we get down to the basic issues. Until you reach the basic origins of disparity, you can do nothing about it. We offer instead of a competitive economy, a co-operative economy. We have a buoyant economy at present in Canada but the farmer is not floating on top of it. I think the farmer should receive his fair share. Three quarters of farm production is bought and used in Canada and it is unfair that he should not get his share right here."

All the speakers were agreed that the farmer should be receiving a share of the income of the country comparable to his investment and work and risk but Dr. Lawrence Kindt took the view that only the Disenfranchisement program offering a new deal in agriculture would remedy the situation. First, he said, Canadian families were overtaxed \$120 each last year and he said that a special session of Parliament would be called if the Conservatives were elected, to revise tax laws and reduce taxes.

Dr. Kindt said that he had helped write the legislation for the Canadian Wheat Board and the Farmers' Creditors Arrangement Act in the thirties and they had been of great assistance to the farmer. "No one would willingly give up the Wheat Board and I want to go a step further asking that the quota be established in advance before spring planting and floor prices set. 'It can be established by economists within 5%', he said. 'Steel corporations get together and estimate supply and demand and they control their output accordingly. Farmers can do the same. I want to see an inducement payment for a voluntary wheat crop reduction plan which would take out about 10%. On selling—government should get wheat into other nations' hands whether selling it or giving it away to needy peoples. One thing that should be remembered about giving wheat away, for instance to India, the government gets the wheat and then 30% of it is sold to people so you are not feeding any starving people and the rest goes to livestock feeding. What you need is an action program such as I have outlined."

Chamber of Commerce and Agriculture

The various committees of the Blackie Chamber of Commerce and Agriculture have been very active completing programs planned. The first of these was a welcoming party for the newcomers to the village and the committee in charge was Carl Smith, Bud Westersund, Les Sutor and Fred Robins who were ably assisted by others. Couples welcomed to the district and honored at the party held in the auditorium were Mr. and Mrs. W. Cormack, Mr. and Mrs. Rex Peckham, Mr. and Mrs. Harley Swartz, Mr. and Mrs. Nels Wadell, Mr. and Mrs. Ralph Caspell, Mr. and Mrs. J. Rushton, Mr. and Mrs. Jim Anderson and Mr. and Mrs. Alex Paul.

Entertainment was in the form of cards at which twelve tables of couples participated; a sing-song led by Phil Husby; musical selections by Lorne McIntosh and Mel Clingman, and Earl Clingman and his sleight of hand, in all a very entertaining program.

Lunch was served and during the lunch hour, poetry was read. The poems, composed locally, were about each of the couples honored and proved to be most interesting and amusing.

A cemetery bee was held on Friday and the work accomplished there is to be commended. A number of people turned out to help and the cemetery now looks very nice. The committee in charge, Robert Nelson, Jim Ririe and Charlie Sultor wish to express their thanks to all those from the town and country as well as the Boy Scouts, for the help received.

It would be impossible to name all those responsible for the burning project so many have participated. So far, old grass of years

accumulation has been burned on the east side of town including around the rink and the block adjacent. Although the program is not completed, the fire hazard in town has been greatly reduced and citizens should be grateful to the Chamber of Commerce members.

Lawrence E. Kindt
 Progressive Conservative
 Candidate, Macleod
 Constituency

J. Diefenbaker

"Shop" to me for all my life has been Agriculture. But for the next couple of months I'm moving my desk from matters of field and furrow to take a look at the big boys up along Ottawa Avenue. Anyway I'll look through Western eyes — for I'm a farm boy. My dad homesteaded near Nanton. I can still milk a cow with cold hand, pat a work horse on his rump so he'll move over, and harness him for his day's work.

The actions of the Liberal Government have been patting me over in my stall for quite a while now. So, I'm harnessed up.

I'm a Diefenbaker man from the word "Go." I believe in his policies, his abilities and his power to form a Government that will be best for Canada. You will continue to hear from me during this campaign and I hope it is within my abilities to convey to you the facts, figures and instances that make it my profound belief that the Progressive Conservatives under John Diefenbaker can do more good for this Canada of ours than any other party or belief.

Consider the Progressive Conservative Five-Point Policy

1. Supremacy of the people in Parliament.
2. Development of Natural Resources
3. Maintenance of Freedom
4. A New Deal for Agriculture
5. A greater opportunity for the young men and women to invest and participate in the Canadian Development.

About ten days ago what everyone thought was someone burning stubble west of the post office turned out to be a fire set by someone passing who had either tossed out a match or a cigarette and started the roadside weeds burning. The fire spread to Gladwin Loughren's stubble and burned a strip east of the building; it also spread to the pasture. Luckily there wasn't too much wind that day and no great loss resulted. Cattle were being trucked to the community pasture that day and it is suspected a careless driver was responsible.

Just how complicated life can be for those of us who live in Alberta is brought home by an incident that happened during the showery weather we had a couple of weeks or so ago. A couple of cattle-hens headed for the L. K. Ranch, left Milo and started straight east. They ran into tough going and after a few miles decided to return to Milo and wait for better conditions to develop. What the truckers didn't know was that there is a gravel road from Milo to Majorville by turning north a mile east of Milo, and anyway when they returned to Milo that day they were almost to where there hadn't been any rain and could have made it through. The motto seems to be never go back, go onward.

Canada's commodity exports in 1955 were valued at \$4,351,300,000 up 10 percent in value over 1954. Commodity imports at \$4,711,500,000 were up 15 percent.

Last week I wrote of the wheat surplus and outlined a storage plan. I would like to see some such program put into effect for two reasons:

First, wheat farmers are having difficulty in selling enough wheat to meet their living and operating expenses.

Second, this wheat surplus is threatening to break the price of livestock. How?

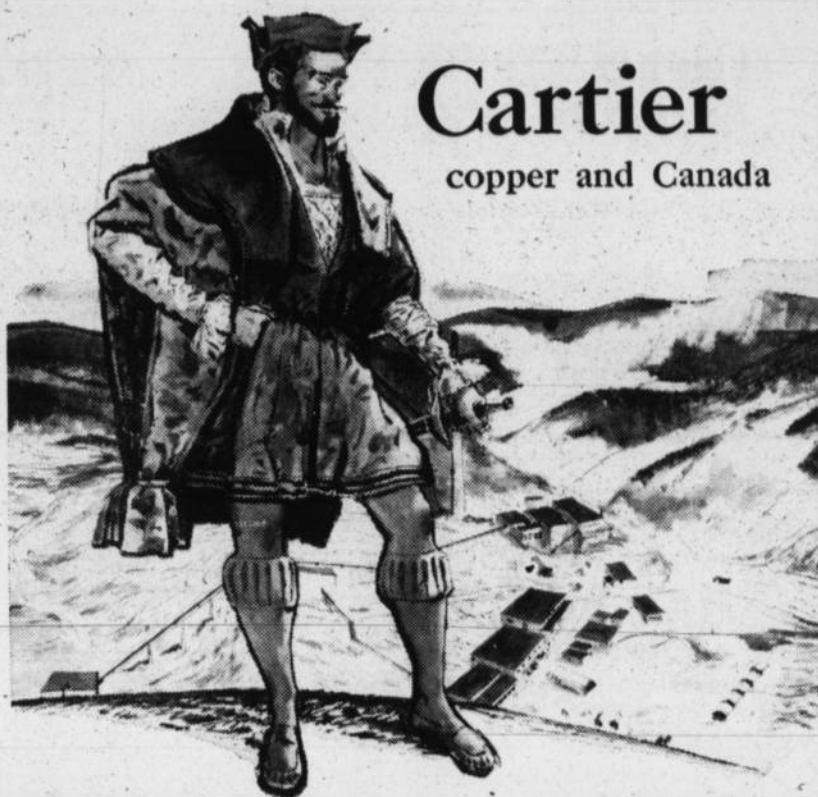

Cattle and hog feeders have been able to buy good wheat from hard-pressed grain farmers for as little as a cent per pound. We all know there is money to be made feeding out 18 cent steers or 26 cent hogs on 60 cent wheat.

The result has been an unprecedented expansion in cattle feeding, and a big increase in hog output is now rolling. Many farmers are feeding cattle or hogs—not because they want to—but as a way of selling their wheat. Meat production is increasing faster than the population. Either the price must come down to persuade the housewife to buy more meat or we must export it. There is only one market to which it can go—the United States—and U.S. meat prices are not enough higher than ours to cover freight and duty.

Cheap feed means cheap livestock. If wheat farmers were able to sell more of their grain to the Canadian Wheat Board they would be less anxious to sell wheat for a cent a pound or to feed cattle and hogs.

Wheat concerns us all—whether we produce wheat, cattle or hogs or supply the farmer with his groceries and machinery. We should have a direct voice in the making of the agricultural policies which so vitally affect us.

Cartier
copper and Canada

As Jacques Cartier sailed into the welcome, quiet waters of Bale des Chaleurs in 1534, he and his men caught their first sight of Indians on the shore . . . and their hands involuntarily clasped the copper-gilted weapons at their sides.

The gesture was symbolic, though they knew it not. For some 420 years later, amid the vast virgin forest, was to rise the Gaspé copper smelter
